TRAINING OVERVIEW

COURSE DESCRIPTION

This course is designed to provide participants with comprehensive knowledge and skills to safeguard personnel and property within corporate environments. It focuses on identifying and mitigating security risks, implementing robust protection strategies, and maintaining compliance with legal and regulatory standards. Participants will gain practical insights into managing security challenges, ensuring workplace safety, and responding effectively to security incidents.

COURSE OBJECTIVE:

Participants will leave this course equipped with the knowledge and tools to effectively protect personnel and property in corporate settings. By applying the principles and practices learned, they will enhance organizational resilience, ensure compliance, and foster a safer work environment.

- Understand the fundamentals of corporate security and its critical role in business continuity.***
- Identify and assess potential threats to personnel and property.***
- Develop and implement effective security strategies and protocols.***
- Enhance incident response capabilities for security-related events.***
- Foster a secure and safe organizational culture.***

SUITABLE FOR:

- ✓ Security managers and personnel***
- ✓ Corporate risk managers***

- ✓ *Facility managers and safety officers*
- ✓ *HR professionals responsible for workplace safety*

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivating everybody to find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on a daily basis to examine the effectiveness of delivering the course.
